DEDUCTION NOTES

FELIX

BELLA

HOW TO SOLVE THE CASE

Beside means directly left, right, above, or below — AND in the same room. Diagonals never count, and walls break adjacency.

01 Each row and each column holds exactly ONE character. When you place someone, small X marks fill their row and column — those squares become impossible.

03 The victim's room ends with exactly two people in it: the victim and the murderer. Place everyone, then submit your solution to close the case.

Chairs, armchairs, beds, cars and water puddles can be occupied. Other furniture blocks its square.

02 The victim was alone with the murderer. Each suspect card shows that character's clue: "north of...", "beside a plant...", "in the same room...". All clues are true.
